
Input-dependent coordinate generation
Regular grid
LayerNorm
Offset prediction
Linear(C→C)
Δa
N×C
Coordinate shift
One offset per spatial position and channel
Sampling coordinates
X
N×C
Axial sampling
Linear interpolation
Channel projection
Linear(C→C)
Y
N×C
a = H:Vertical; a = W:horizontal
ASU-H: height axis
H
Vertical sampling; width coordinate fixed
ASU-W: width axis
W
Horizontal sampling; height coordinate fixed
